

PRODUCT DISCONTINUATION NOTICE

September 15, 2015

Dear Hologic Customer,

As a valued Hologic customer, you have our commitment to provide you with the highest quality customer service, product support and technologically advanced products. We pride ourselves in being the leading manufacturer of Women's Health products, a goal that could not be achieved without customers like you.

The Mammography Information Management Solutions, (MIMS-PLUS) was offered as a DICOM conformant archival device (storage library) designed for use as a PACS. Our records indicate that your facility has purchased a MIMS-PLUS. Unfortunately, the increasing scarcity of replacement components for the MIMS-PLUS makes it difficult for us to support this system indefinitely.

After careful consideration, it is necessary to declare the Product Discontinuation for the MIMS-PLUS. We will continue to provide phone support, onsite service support, and materials based on the availability of replacement parts for this system. Every effort will be made to service our current customers through September 30, 2016.

Hologic is encouraging our valued customers to contact their local Hologic Account Manager, or a Hologic Customer Sales Support representative to obtain more information on our selection of state of the art, industry leading mammography products such as the Hologic's SecurXchange™ product lines to replace MIMS-PLUS technology.

Hologic wants to continue its relationship with you well into the future. We remain committed to providing our customers with the highest quality products and service. We regret any inconvenience that this may cause, however we believe you will find our new product offerings very attractive. For questions regarding service on your MIMS-PLUS please contact Customer Support at 1-877-371-4372 or call your local Hologic Account Manager for further information.

Sincerely,

A handwritten signature in black ink, appearing to read "Roger D. Mills".

Roger Mills,
Vice President, Service and Support
